

Powercor Partnering Agreement

Project: Powercor Partnering Agreement- Provision of Glove and Barrier and Servicing Lineworker with Equipment

Client: Powercor Australia Ltd

Location: Victoria

Contract Value: AUS \$2 - 2.5 Million p.a.

Contract Duration: May 2001 - October 2003

Powercor has recently renewed its contract with Electrix for the supply of Glove and Barrier and general lineworkers. The contract renewal covers up to 20 lineworkers and equipment for a one year period with the option to extend for a further year.

The success with the continuing renewal of this contract is evidence of the strong relationship that has been developed with Powercor over an extended period.

A new depot has been established in the heart of Powercor's region - Geelong, enabling Electrix to further improve the services provided.

A significant step into the continuing strength of the relationship with Powercor is that Electrix was able to extend its service, under the terms of the agreement, to include the provision of after hours availability.
